"Little Stars of Europe"

Oplean Ramona Viorela

Storyline:

Nexus, a little star from the flag of the European Union, lives high in the sky above Europe. One day, a strong wind blows him away from his place and scatters the other stars across different countries. To find his friends and make the European flag shine again, Nexus must travel across Europe and discover the values that unite people.

In each country he visits, Nexus meets children and asks for their help. The children from different countries collaborate, solve riddles, overcome challenges, and assist him. Through these small adventures, they learn the meaning of each value. When each challenge is completed, one star returns to the flag. When all the stars have been found, the flag shines once more—because our shared values unite us all.

Nexus is a little star, shining in the blue,
The wind blew all his friends away, oh what can Nexus do?
Through Europe he must travel now, with children by his side,
To find the values in our hearts and let them be our guide!
Hand in hand, across the land,
A circle made of gold!
With Nexus and his shiny stars,
A story to be told!
Together we are stronger, together we are one,
Our flag is bright and glowing now the journey has been done!
In Greece, we find Democracy and Freedom in the air,
In Romania, Human Dignity and Equality we share.
In Italy, Diversity and Rights are what we see,
In Cyprus, Justice and Equal Opportunities for you and me!
In Malta, Solidarity and Peace will always stay,
In Belgium, the Rule of Law and Sustainability lead the way.
Six countries worked together, like pieces of a puzzle, We solved the riddles, helped our friends, and skipped through every trouble!
Clap for Greece! Clap for Romania! Clap for Italy! Clap for Cyprus! Clap for Malta! Clap for Belgium! All the stars are back!
Nexus
climbs up to his spot, high up in the sky, The flag of Europe twinkles now, as we wave a happy goodbye.
Collaboration is our strength, our values are our light,
Together we make Europe's heart shine very, very bright!
